

Peer Review

Students give comments and/or scores to their peers' work. Please select or type in a question now to begin. It is more meaningful to comment on open-ended responses.

Create new question

Number of choices in this question: 4

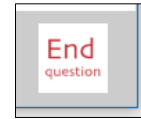

Enter your question text (optional)

Start Grouping

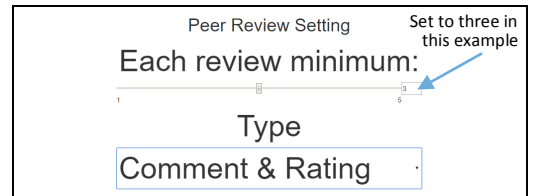

Step 2: Click 'start' when participants are ready to answer.

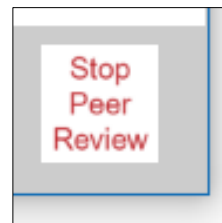

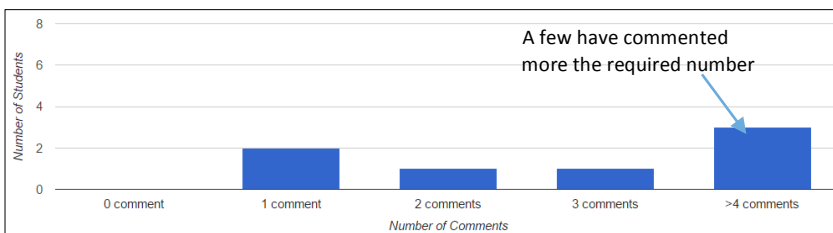

Step 3: Click 'end' when most/all participants have responded.

Step 4: Allow peers to review each other now. Decide minimum number of reviews each have to make and whether you allow them to rate as well as to comment.

Step 5: This bar chart shows progress of the reviewing process. Some students have done more reviews than others. Click the individual bars to see who they are. Click 'stop peer review' to end the activity.

Step 6: This page shows the scores and comments students got from each other.
